Summary

Full Stack Developer With 1 year of experience in Laravel (PHP), HTML, CSS, JavaScript, and RESTful APIs. Skilled in developing dynamic web applications, backend systems, and API integrations. Currently expanding expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). Quick to learn new technologies and adaptable, with a strong focus on delivering efficient, high-quality solutions

Skills

- **Backend Development:** Laravel (PHP), Node.js, Express.js
- **Frontend Development:** HTML5, CSS3, JavaScript, React.js
- **Databases:** MySQL, MongoDB
- **API Development:** RESTful API design, development, and integration
- **Other Skills:** Git, GitHub, Responsive Design, MVC Architecture, Figma UI design, Problem Solving, Eager to Learn New Technologies

Experience

Laravel Full Stack Developer

[Ernakulam, India]

Cyenosure - Enter The Technoverse

- Developed dynamic web applications using Laravel (PHP), HTML, CSS, and JavaScript.
- Integrated RESTful APIs for various modules and third-party services.
- Maintained and enhanced existing backend systems using MVC architecture.
- Collaborated with frontend and backend teams to deliver responsive and user-friendly web solutions.

Projects

Adworld

Developed a dynamic website using Laravel (PHP), HTML, CSS, and JavaScript. Integrated email services and real-time chat functionality.

Dating App (UI Design)

Designed an intuitive and responsive dating/matrimony app UI using Figma, focusing on user engagement and mobile-friendly layouts.

Cyenosure Website

Built a fully dynamic website with Laravel backend and responsive frontend (HTML, CSS, JavaScript), optimizing content management.

TheFranchisGoldmine

Developed a scalable web project using Laravel (PHP), implementing CRUD operations and dynamic franchise listing features.

Giseloerseas Cargo Management

Created a cargo management system using Laravel, MySQL, and HTML/CSS, supporting dynamic content updates and efficient cargo tracking.

Support Ticket Management System

Built a web application with Python Django, centralizing customer support tickets, automating workflows, and streamlining IT operations.

Gulf Cargo Management

Developed a cargo tracking system using Laravel, MySQL, Bootstrap, and jQuery, enabling real-time updates via WhatsApp notifications.

Education

Mahathma Gandhi University

[Kottayam, India]

Bachelor Of Computer Application

Completed BCA with knowledge in programming, data structures, algorithms, and networking. Gained hands-on experience through coding projects, RESTful API integration, and database management. Built responsive web applications and applied data structures in real-world projects.

Enbridge Training-Institute

[Ernakulam, India]

Specialist IT And Cybersecurity

Completed one year of hands-on training in networking (CCNA), cybersecurity, server management, hardware troubleshooting, Python programming, and AWS cloud services.

Certifications

Robotics and Robot Operating System (ROS), [Provider]

SQL Injection Cyber Security Course, Udemy

EC Council Ethical Hacking Associate, EC Council

Python Programming, [Provider]

Interests

Exploring new web technologies and frameworks.

Building efficient and scalable backend systems.

Enhancing user experience through intuitive UI designs.
